Superintending Engineer (RA & FD)  
MeSEB, Shillong

**The following Acts are construed as offences under the Electricity Act 2003 (EA 2003) for which the penalties are liable to be imposed.**

1. Theft of Electricity – Section 135 of the EA 2003 specifies that whoever, dishonestly taps any electric connection, tampers a meter, damages or destroys an electric meter, use electricity through a tampered meter or uses electricity for the purpose other than for which the usage was authorized, shall be punishable with imprisonment for a term which may extend to three years or with fine or with both.
2. Theft of electric lines and materials – Section 136 of the EA 2003 specifies that whoever removes or keeps in his premises or carries from one place to another, any electric line, materials or meter from a tower, pole or any other installation, is said to have committed an offence of theft of electric lines and materials, and shall be punishable with imprisonment for a term which may extend to three years or with fine or with both.
3. Punishment for receiving stolen property – Section 137 of EA 2003 specifies that whoever receives any stolen electric line or material shall be punishable with imprisonment for a term which may extend to three years or with fine or with both.
4. Interference with meters or works of licensee – Section 138 of EA 2003 specifies that whoever unauthorizedly connects or disconnect or reconnect any meter from any electric line when the said electric line has been disconnect, shall be punishable with imprisonment for a term which may extend to three years, or with fine which may extend to ten thousand rupees, or with both.
5. Negligently wasting electricity or injuring works – Section 139 of EA 2003 specifies that whoever, negligently causes electricity to be wasted shall be punishable with fine which may extend to ten thousand rupees.
6. Penalty for maliciously wasting electricity or injuring works - Section 140 of EA 2003 specifies that whoever, maliciously causes electricity to be wasted shall be punishable with fine which may extend to ten thousand rupees.
7. Extinguishing public lamps - Section 141 of EA 2003 specifies that whoever, maliciously extinguishes any public lamps shall be punishable with fine which may extend to two thousand rupees.

**Instructions to help prevent mishaps and precautions to be taken:**

WHAT TO DO WHEN.....

1. Power supply fails - Please register your complaint with the Complaint Booth of your Area either over the phone or in person. Give details of your complaint and please insist on the complaint number.
2. Leakage of current occurs - please switch off your Main Switch and inform the Complaint Booth immediately.

3. Electric conductor snaps - Please do not touch the broken wire and inform the Complaint Booth immediately.
4. Firebreaks due to shorts circuits- Use fire extinguisher if available and sand also can be used; do not pour water on the live wire and switches. Inform the Fire Service and the complaint booth immediately. In case of burning wires, switch-off the main switch immediately.
5. For cutting of trees / branches near the electric lines, contact the local MeSEB Office.
6. Do not tamper with electrical equipments when supply is **ON**. Please do not stand barefoot when replacing bulbs, switches, fuses etc.
7. Do not use damage switches, sockets, plugs, etc. Replace them immediately.
8. Do not leave the appliances in **ON** condition and unattended for a long time.
9. Do not use Immersion rod in your bathroom.
10. Seal all un-used electrical points with appropriate plugs/sockets, especially if you have small children.
11. Always use proper protective devices like MCB'S, CVT'S, Switch Board, Control panels for your electric appliances.
12. Switch off all electrical appliances when not in use.
13. Do not climb electric poles.
14. Always buy electrical appliances having ISI mark.
15. Avoid construction of house near high-tension wires.
16. Use light colours for walls. This reduces lighting requirement by 40%.
17. Do not erect Antenna near electric wires.
18. Make sure that the wiring in the house has got proper earthing. Do not use electrical appliances if proper earthing is not there.
19. Avoid using electricity if the voltage is low.
20. Always fit fuse of proper size and rating according to requirement.
21. Do not consume electricity more than the connected load you have applied. If you feel that you require electricity more than the connected load you have applied, please submit application for the same to the MeSEB office immediately.
22. Lastly, theft of energy is a crime and will be punished according to the law.
